

## Invitation to Open Presentation of Engineering FEA Software Products

We are happy to invite you to Open Demo Day in Gardermoen with presentation of the latest FEA simulation technology supported by FEMComp Engineering AB. During the Day we like to present our major FEA Products we distribute in Scandinavia like Femap with NEi Nastran respectively NX Nastran as well as CAE integrated products represented by NEi Fusion and NEiWorks.

**FEMAP** by Siemens PLM Software is a professional level modeler and results processor used for preparing models and viewing the results of engineering analyses for structural, heat transfer, and fluid flow problems. Femap is tightly integrated with NEi Nastran and NX Nastran.

**NEi Nastran** is a powerful, professional level, Finite Element Analysis tool used in all industries to simulate and analyze linear and nonlinear stress, dynamics, and heat transfer characteristics of structures, mechanical components, and fluids.

**NEi Fusion™** is the perfect package for getting started in Finite Element Analysis because it includes the most widely used and needed analysis capabilities — linear statics, steady state heat transfer, normal modes, buckling, and prestress plus additional capabilities for handling composite material analysis, assemblies with contact and design optimization analysis.

**Date:**  
Tuesday, 28<sup>th</sup> September, 2010

**Location:**  
Clarion Hotel Oslo Airport  
Hans Gaarder veg 15  
Sør-Gardermoen, 2060 Gardermoen  
Norway

**Time:**  
10:00 – 16:00

### Agenda

10:00-10:30 Welcome to FEMComp Engineering FEA Software Products  
10:30-12:00 General Presentation of Femap with NX/NEi Nastran  
12:00-12:45 Lunch break  
12:45-14:00 Femap with NX/NEi Nastran Application Examples  
14:00-15:30 NEiFusion/Works Overview with practical applications  
15:30-16:00 Discussion and closing

### Registration

Seminar is free of charge however please register and book your seat using [info@femcomp.com](mailto:info@femcomp.com) no later than the 21<sup>st</sup> of September 2010.
